

APPLICANT: Cheng Fong International Limited

FCC ID: W2VCF001

- 1 ) CPU: 80C51 MCU control other ic and inside circuitry, main IC(6208E) inner run frequency: 60MHZ.
- 2 ) 6208E: supply jarless 5V power to the inner regulator n pipe(3.3v), and then from regulator pipe(3.3v) to Output power 1.8V.
- 3 ) LED display: Display current state of usb flash drive.
- 4 ) 6208E: working frequency is 12MHZ, 80C51 MCU process all digital signal, through I/O to memory IC.
